

Levae.com Youth Education & Sports Website is primarily dedicated to the development of youth sports for the purpose of providing a forum for families to track the progress of youth student/athletes across America.

LeVae.com was started in August 2004 based on a simple premise of sharing information with organizations across the country that share the same desire to promote the advancement and development of our nation's student/athletes. The Vision of LeVae.com is to be able to track the progress of student/athletes from ages 5 to 15.

LeVae.com provides information to all audiences from student/athletes and their families to football coaches and their organizations on stats, travel information to sporting events, and the locations of championship tournaments. Coaches also have the opportunity of sharing secrets and words of encouragement to fellow organizations.

LeVae.com provides five categories where youth players can chat safely on the site with other players across the United States. Parents can find out how their child's organization is progressing and a direct link to communicating with parents and coaches of their respective organization.
